2. Learning objectives

Please state briefly the learning objectives of that session, including a clear statement of detailed outcome objectives of each course, i.e. "After completing this course participants will be able to: [understand ... list comment critically ... describe ... outline identify ... develop ... etc]

Objective of Session 1 (Panel Discussion) is to provide an overview on Environmental sectors and legislation and how they are interrelated to each other. It will be highlighted Community's overriding objective of promoting sustainable development.

Second Objective of Session 1 (Panel Discussion) is to provide understanding to the participants that implementation of environmental legislation cannot be made isolated and administrative and enforcement system must mirror that need of cooperation and coordination.

Objective of Session 2 is to provide an overview on IMPEL and cross cutting issues and on experiences from Austria with implementation of cross-cutting legislation by using electronic data management sharing system (EDM).

3. Training session abstract

Please provide a summary of the content of your training session with a clear logic and simple vocabulary.

Training will be provided through 2 oral interventions and 2 short presentations.

4. Suggested reading list, sources, useful links

Please provide the participants with a reading list including book chapters, articles, reports, web pages, etc. that will allow them to either prepare for the session or use it as a resource to further explore and learn about what you wanted to teach them. Please also include the sources from where the information has come from (even if it is the consultants own work, please reference relevant publications). This is aimed to ensure the quality of the training sessions under Themis.
